## Top Skills

Front-End Development  
Problem Solving

# Salem Gewiley

Front end developer & Competitive programmer  
Al Qalyubiyah, Egypt

## Summary

I'm currently studying Computer Science at El-Shorouk Academy, with a graduation date set for 2025. I enjoy solving problems on Codeforces and have a basic understanding of data structures and object-oriented programming (OOP).

I've been learning about web development, gaining hands-on experience to complement my theoretical knowledge.

I'm always eager to learn new things and work hard to improve my skills. If you're looking for someone who's dedicated, loves problem-solving, and is keen on continuous learning, I'd be happy to connect.
